Subject: Updated PB90 ALEs from January 2017 SFDW

Corine, attached is the PB90 ALE data for a sampling period covering any part of 2016Q4 that I mentioned at the section meeting today. It's from the latest frozen SFDW. Clicking on any of the ALE counts will display the detail for that agency and sampling period start year/quarter. I haven't yet compared the detail to the spreadsheet to make sure I'm displaying the right fields; I plan to do that when I'm back in next week. --Don
